

Purge control solenoid valve

The diagram is a black and white line drawing of an engine compartment. It shows various components including hoses, a solenoid valve, and a canister. Two leader lines with dots at the end point to the 'Purge control solenoid valve' and the 'Canister'. The solenoid valve is a small cylindrical component with a coil, and the canister is a larger, rectangular component with a grid-like pattern on its side. The drawing is detailed, showing the complex arrangement of parts in the engine bay.

Canister
