

MD998785

A technical line drawing of a mechanical assembly. The drawing shows a gear mounted on a central shaft, which is supported by a bracket. The gear has a central hub with a hexagonal hole. The bracket is a curved, C-shaped component that fits around the gear. The entire assembly is mounted on a larger, rectangular base plate with several circular holes. A leader line points from the text 'MD998785' to a specific hole in the base plate.
