

A technical line drawing of a valve assembly. The drawing shows a central valve body with several components: a nut on top, a nut on the right side, and a nut on the bottom left. Two valves are shown protruding from the top of the assembly. An arrow points from the word 'Plastigage' to a thick, dark line representing the Plastigage material applied to the valve seat. The drawing is a black and white line art style.

Plastigage
