

The diagram shows a top-down view of an engine's fuel injection system. Three fuel injectors are mounted on a rail. Two lines from the word 'Injector' point to the middle and right injectors. To the right, a 'Equipment side connector' is shown, which is a circular component with two terminals labeled '1' and '2'. Two lines from this label point to the terminals. The engine block, various hoses, and other mechanical parts are visible in the background.
