

Passenger's air bag module  
harness side connector

The diagram shows a close-up of a rectangular air bag module connector. A flat-tipped screwdriver is inserted into a slot on the left side of the connector. An arrow points to a small protrusion on the top surface of the connector, labeled as the locking button. A cable is connected to the right side of the connector. The background shows the interior of a vehicle, including a seat and a door panel.
