

A technical line drawing showing the assembly of a seat belt pre-tensioner harness side connector. The drawing depicts a rectangular connector with a locking button on its side. A flat-tipped screwdriver is shown being used to adjust a screw on the top of the connector. A locking button is also shown being pressed into the side of the connector. The connector is mounted on a seat belt webbing. The diagram includes labels for the 'Flat-tipped screwdriver', 'Locking button', and 'Seat belt pre-tensioner harness side connector'. The part number 'ACB04317AB' is located in the bottom right corner.
