

A technical line drawing showing the installation of a rear seatback assembly. A person's hands are shown holding a long, rectangular seatback panel. The panel is being positioned to fit into a seat frame. A curved arrow indicates that the panel should be rotated 90 degrees. Labels with leader lines identify the 'Rear seatback assembly (LH)' and 'Rear seatback assembly (RH)'. The diagram also shows the seat's structural frame, including the seat pan and the rear cross-member.
