

A technical line drawing of a crankshaft assembly. The drawing shows the crankshaft in a partially assembled state. A specific area on the crankshaft is highlighted with a thick black line, indicating the location of Plastigage. A hand is shown using a thin metal tool to measure the thickness of the Plastigage. The drawing includes various components of the crankshaft, such as the crank pin, main journals, and connecting rods. The word 'Plastigage' is written in a bold, sans-serif font, with a leader line pointing to the measurement point. The part number 'AK503390 AC' is located in the bottom right corner.

Plastigage

**AK503390 AC**
