

A technical line drawing of a piston assembly. The piston is positioned vertically, with its crown at the top and the wrist pin at the bottom. The piston rings are shown in their respective grooves. A small, rectangular piece of Plastigage is placed between the piston rings and the cylinder wall. An arrow points from the word 'Plastigage' to this piece. The cylinder block is shown in cross-section, with several cooling passages visible. The drawing is a black and white line art style.

Plastigage
