

Timing indicator

A technical line drawing of an engine timing indicator assembly. The diagram shows a timing indicator bolt with a hexagonal head and a conical tip. A scale on the bolt is marked with the number '10' and several tick marks. An arrow points from the text 'Timing indicator' to the bolt. Another arrow points from the text 'Notch' to a notch on the bolt's shaft. A circular inset in the bottom left shows a close-up of the hexagonal head of the bolt. The background shows various engine components, including a timing belt and other bolts.
