

M3

A technical line drawing of a mechanical assembly. A long, thin cylindrical component is positioned horizontally across the top. A vertical screw is being inserted into a hole in this component. The screw is shown with a dashed line extending downwards into a larger, circular hole in a component below. On the left side, a vertical dimension line with arrows at both ends is labeled 'M3', indicating the diameter of the hole. The drawing uses solid lines for visible edges and dashed lines for hidden or internal features. The overall style is that of a technical manual illustration.
