

Blower unit assembly

A technical line drawing of a vehicle's interior, specifically the area under the dashboard. The drawing shows the blower unit assembly, which is a rectangular component with a ribbed top surface and a fan-like structure. It is connected to the A/T-ECU (Automatic Transmission Electronic Control Unit) via a cable. The A/T-ECU is a small, rectangular component with a circular connector. The drawing also shows the blower unit's connection to the vehicle's electrical system, including a fuse and a relay. The text 'Blower unit assembly' is written in a bold, sans-serif font at the top right of the drawing. A line points from this text to the blower unit. The text 'A/T-ECU <4M41>' is written in a bold, sans-serif font at the bottom left of the drawing. A line points from this text to the A/T-ECU. The text 'AC607117 AC' is written in a bold, sans-serif font at the bottom right of the drawing. The drawing is a black and white line drawing with no shading or color.
