

Gear oil

Upper limit

Lower limit

5 mm

A technical diagram showing a cross-section of a gear housing. The housing is partially filled with gear oil, indicated by a horizontal line with a dot. The oil level is between two horizontal lines labeled 'Upper limit' and 'Lower limit'. A vertical double-headed arrow between these lines is labeled '5 mm'. A hatched rectangular area is shown on the right side of the housing, representing a gear or a specific component. A leader line points from the text 'Gear oil' to the oil level line.
