

Radiator support panel

A technical line drawing of the front-left quarter of a vehicle. The drawing shows the radiator support panel, which is a rectangular metal component mounted on the front end. A front impact sensor (LH) is mounted on the radiator support panel. The sensor is a rectangular electronic component with a mounting bracket. Two lines point from the text labels to the sensor and the radiator support panel. The drawing also shows the front suspension components, including the control arm and the steering knuckle. The text 'Radiator support panel' is located above the sensor, and 'Front impact sensor (LH)' is located below the sensor. The drawing is a black and white line drawing.

Front impact sensor (LH)
