

MB992102

The diagram shows a perspective view of the front deck crossmember area. A large, multi-pin connector, labeled MB992102, is being installed onto a bundle of wires. The wires are labeled as 'Deployment wires'. The crossmember is labeled 'Front deck crossmember'. A metal rod or cable is visible running through the crossmember. A small number '3' is visible near the connector. A separate connector is shown at the bottom left. The diagram is a line drawing with some shading to indicate depth.
