

A technical line drawing showing the installation of a curtain air bag module. The module is a long, cylindrical component with various mounting points and electrical connectors. It is shown being secured to a metal frame with bolts. A bundle of wires, labeled as deployment wires, is connected to the module. A specific part of the wiring is identified with the code MB991885. The overall assembly is part of a vehicle's interior structure, with various panels and beams visible.
