

Diagnosis connector

The diagram illustrates the connection of a diagnosis connector to a vehicle's diagnostic port. A hand is shown plugging the connector into the port. A cable labeled MB991960 connects this port to a diagnostic tool. The tool has a connector labeled MB991824 at the top, a connector labeled MB991910 in the middle, and a connector labeled MB991806 (SWS monitor cartridge) at the bottom. The tool is shown in a vertical orientation.
