Rod

A technical line drawing of a mechanical assembly. At the top is a cylindrical component with a ribbed top edge. Below it is a vertical rod passing through a hole in a larger cylindrical component. Two small circles, representing O-rings, are positioned where the rod enters the cylinder. Label 'A' points to the upper O-ring, and label 'B' points to the lower O-ring. The label 'Rod' points to the vertical shaft. The assembly is mounted on a base with a circular feature on the left and a tapered section on the right.
