

Left bank
oxygen sensor (rear)
(connector)

Shock absorber
assembly (RH)

The diagram shows a top-down view of the rear left side of a vehicle. A line points from the text 'Left bank oxygen sensor (rear) (connector)' to a sensor unit mounted on the engine block. Another line points from 'Shock absorber assembly (RH)' to the right-hand shock absorber. A connector with four numbered terminals is shown to the left of the sensor.

Equipment side
connector

Left bank
oxygen sensor (rear)

The diagram shows a side view of the rear left bank oxygen sensor. A line points from the text 'Left bank oxygen sensor (rear)' to the sensor unit. The sensor is connected to a wiring harness that runs along the engine block.
