

The diagram shows a tailgate hinge assembly mounted on a vehicle's body. The assembly consists of a main metal bracket with two cylindrical hinges at the top. Below the bracket, two circular components are shown being inserted into the body of the vehicle. Dashed lines and arrows indicate the insertion points. A large 'X' is drawn over the area where the components are being inserted, suggesting a warning or a specific installation step. The text 'Tailgate hinge' is written to the right of the assembly, with a line pointing to the main bracket. The part number 'AC206033AC' is located at the bottom right.
