

Tailgate hinge

The diagram shows a tailgate hinge assembly. A central metal plate has a circular hole at the top and a rectangular protrusion at the bottom. A horizontal bar is attached to the top of the plate. A vertical rod passes through the center of the plate. A curved metal arm is attached to the side of the plate. A callout line points from the text 'Tailgate hinge' to the central plate. Another callout line points from a small black rectangular component to the bottom of the plate. A third callout line points from a small black cylindrical component to the bottom of the plate.
