

Clip

Headlining

A technical line drawing showing a car headlining clip assembly. A circular clip is attached to a vinyl cord. The clip is shown being inserted into a hole in the headlining. The vinyl cord is shown extending from the clip. The headlining is shown as a curved surface. The clip is shown in two positions: one where it is being inserted into the headlining and one where it is fully seated. The vinyl cord is shown in two positions: one where it is being inserted into the clip and one where it is fully seated. The headlining is shown as a curved surface. The clip is shown in two positions: one where it is being inserted into the headlining and one where it is fully seated. The vinyl cord is shown in two positions: one where it is being inserted into the clip and one where it is fully seated.
