

Passenger's air bag module
harness side connector

The diagram shows a close-up of a rectangular air bag module connector. A flat-tipped screwdriver is inserted into a slot on the side of the connector. An arrow points to a small protrusion on the side of the connector, labeled as the locking button. The connector is connected to a cable that runs towards the right side of the frame. The background shows the interior of a vehicle, including a seat and a door panel.
