

A technical line drawing of a hand tool, possibly a torque wrench, with a handle and a head. The drawing is annotated with labels and arrows. The labels are: 'Engine-ECU' pointing to a component on the handle, 'Lock lever' pointing to a lever on the head, and 'Lock button' pointing to a button on the handle. There are also three black arrows: one pointing to the handle, one pointing to the head, and one pointing to the handle again. The drawing is a black and white line art.
