

MD998028

This technical drawing shows a mechanical assembly, likely a valve or actuator, mounted on a metal plate. The assembly consists of a central shaft with a gear-like end, surrounded by various seals and components. A bracket-like structure is attached to the side, secured with a bolt. Two callout lines point to specific parts: one to a small rectangular component labeled MD998028 and another to a larger cylindrical component labeled MD998020. The drawing is a black and white line art illustration.
