

MD998801

The image is a technical line drawing of a mechanical assembly. A central vertical shaft with several distinct diameters and grooves is shown. It is mounted on a circular component with a flange. This assembly is supported by a rectangular bracket or housing. The bracket has two vertical support posts, each secured with a hex nut and a threaded rod. The drawing is a perspective view, showing the top and side of the components. A leader line points from the text 'MD998801' to the upper part of the bracket.
