

A technical line drawing of a coil spring assembly. The drawing shows a vertical shaft with a coil spring wound around it. The spring is shown in a perspective view, with several coils visible. At the bottom of the spring, it is seated on a horizontal surface. A label 'Coil spring end' points to the bottom-most coil. Another label 'Spring seat' points to the horizontal surface the spring is resting on. The drawing is a black and white line drawing with no shading.
